

BAHARI

General information

BAHARI YACHTS, specialized in design, construction and boat refitting in the Balearic Islands, has developed a new concept of sailing catamaran, mainly focused on the type of sailing in Balearic waters, the charter.

After months of effort and dedication, we present **BAHARI D41' & BAHARI P41'**.

Sailing catamaran designed to meet all the needs that these waters require and revolutionize the charter market.

In this project our Naval Architects and Engineers have decided to bet on local manufacturing, thus giving voice and value to the great boatbuilders experience and knowledge of the Balearic Islands and Spain.

Breaking with the practice, increasingly questioned, of manufacturing in foreign countries and importing.

Minimalism, resistance and maneuvering, these characteristics have served as a premise for the creation of the conceptual design, spaces and details in her range for the two versions presented, as a nautical charter and passenger small vessel.

The same criteria have been respected, thus broadening the possibilities offered to clients interested also in the commercial use.

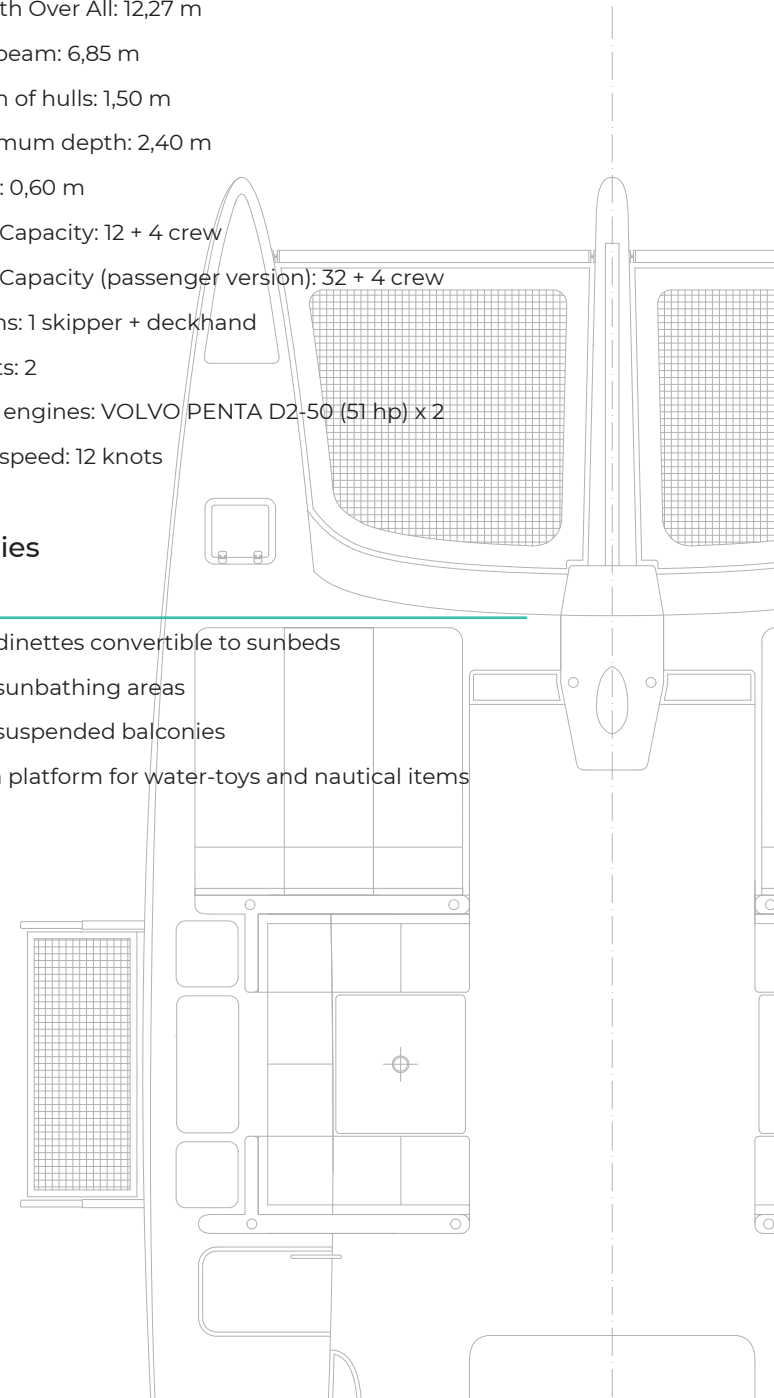

Specifications

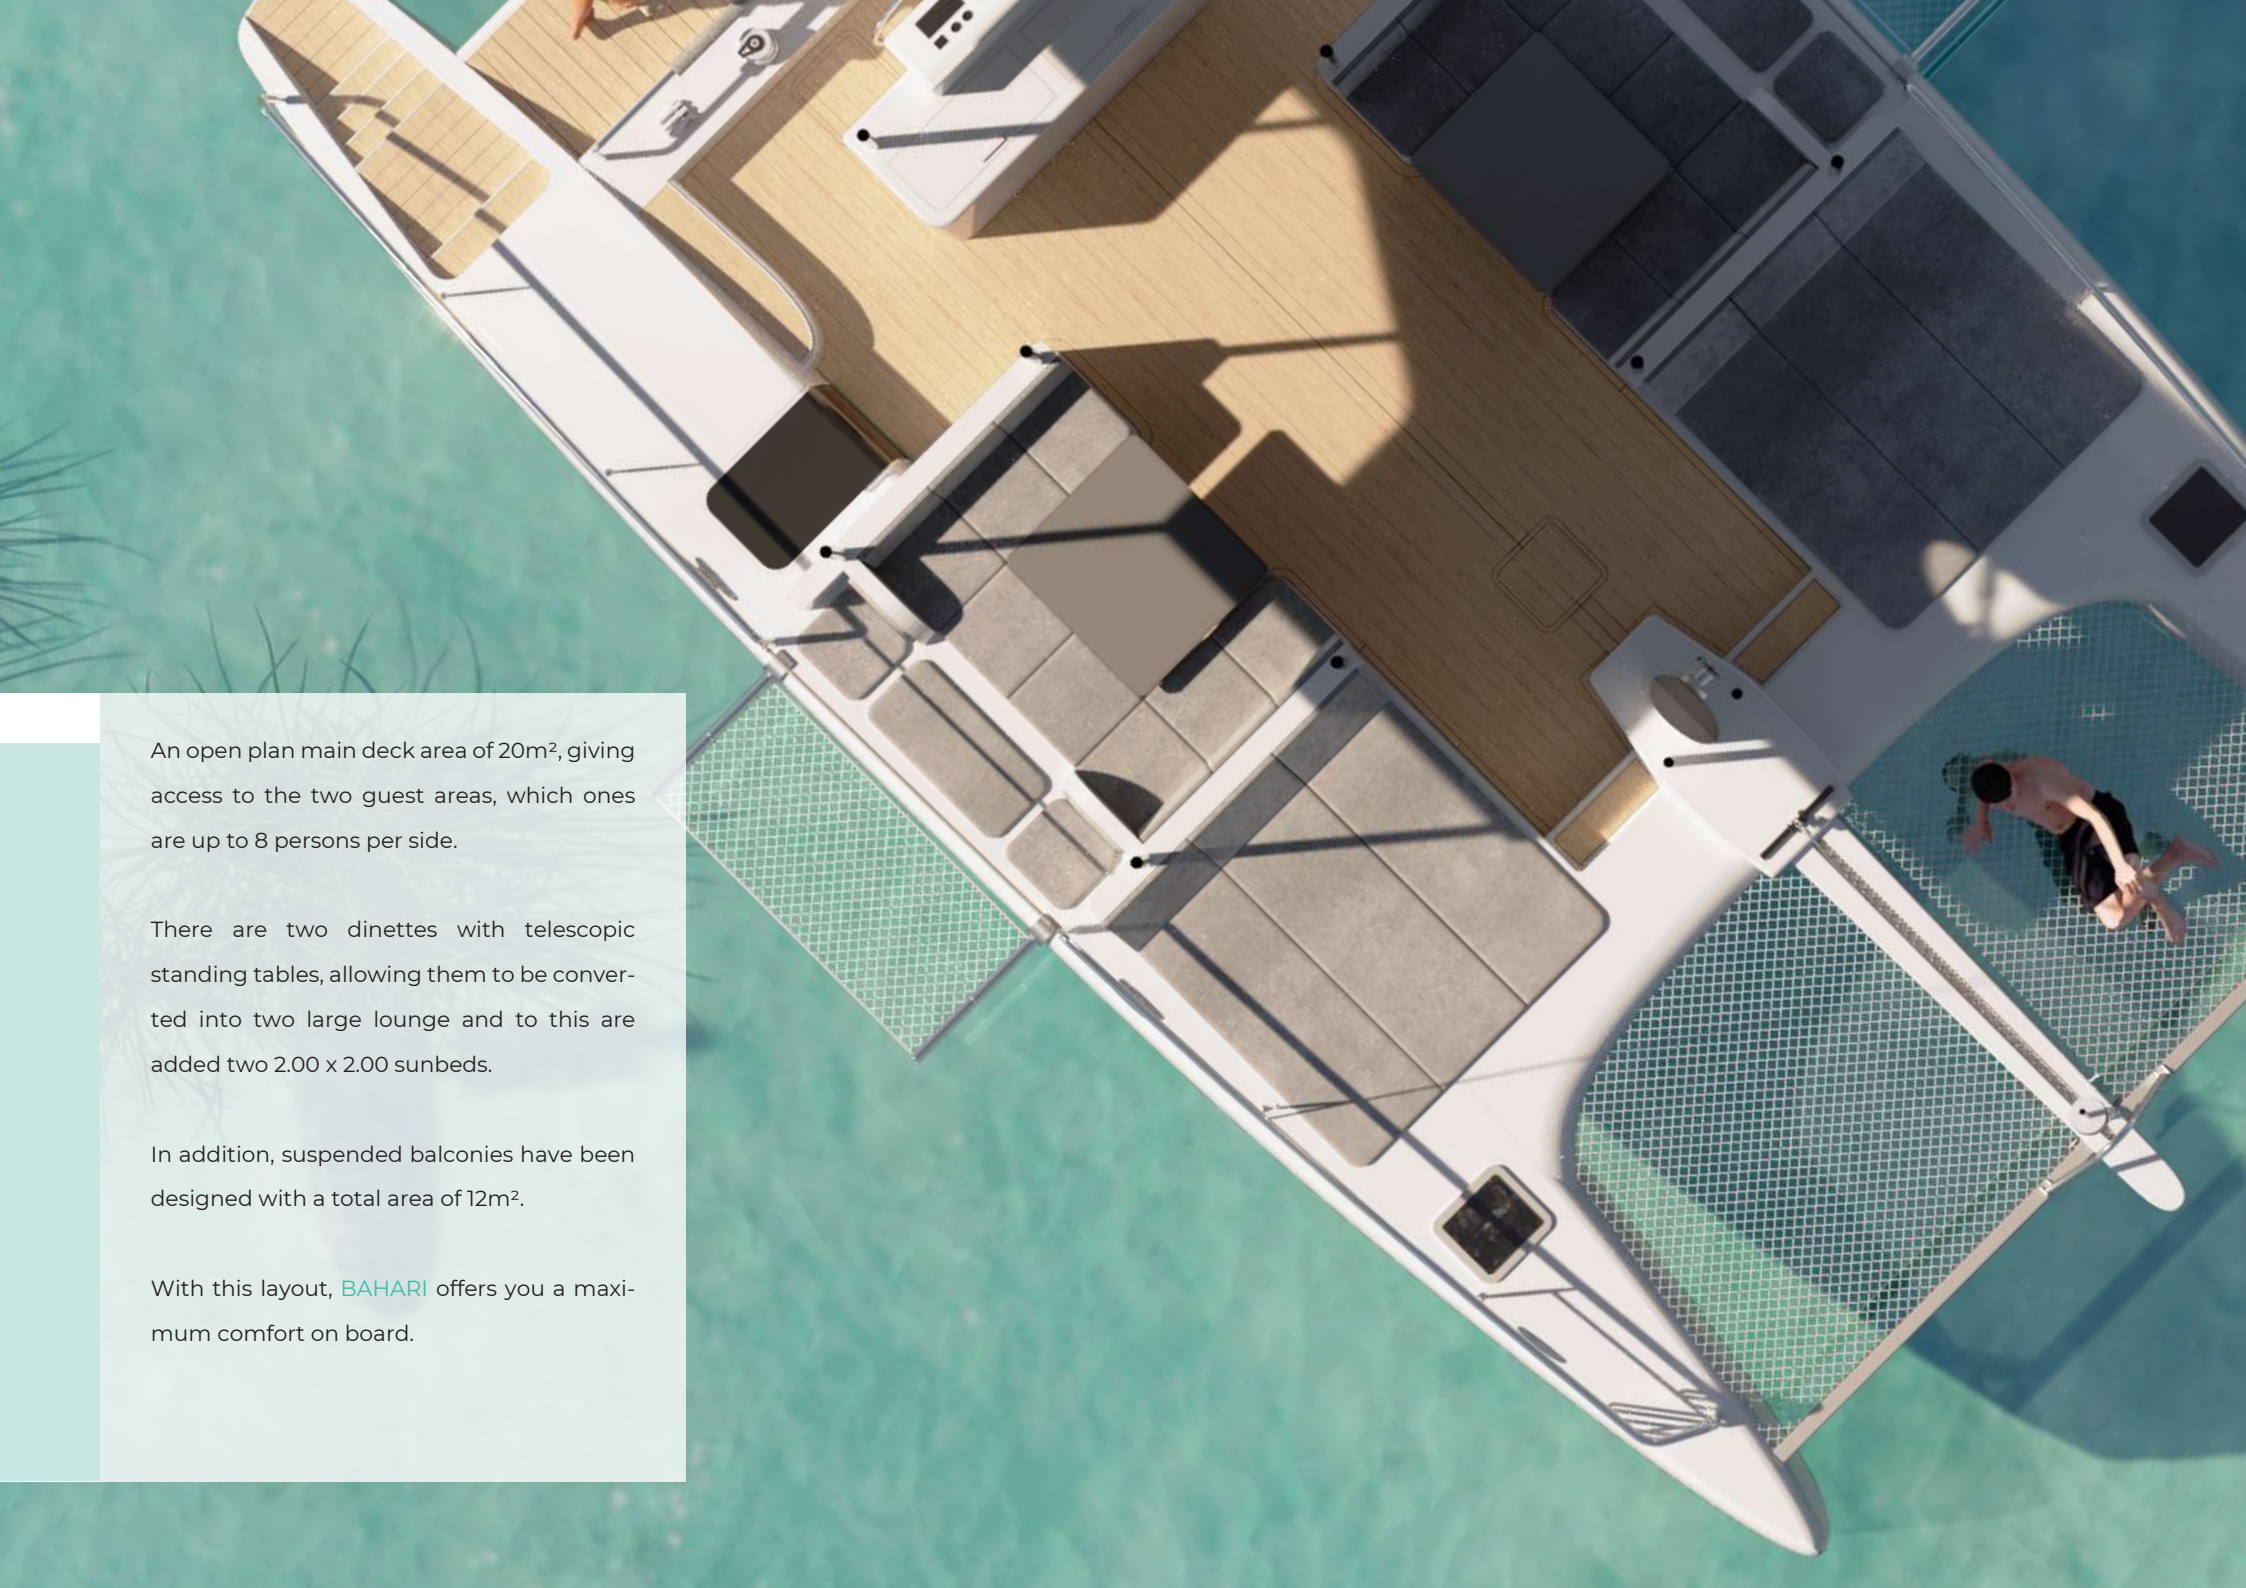

- Length Over All: 12,27 m
- Hull beam: 6,85 m
- Beam of hulls: 1,50 m
- Maximum depth: 2,40 m
- Draft: 0,60 m
- Max. Capacity: 12 + 4 crew
- Max. Capacity (passenger version): 32 + 4 crew
- Cabins: 1 skipper + deckhand
- Toilets: 2
- Main engines: VOLVO PENTA D2-50 (51 hp) x 2
- Max. speed: 12 knots

Facilities

- Two dinettes convertible to sunbeds
- Two sunbathing areas
- Two suspended balconies
- Stern platform for water-toys and nautical items

An open plan main deck area of 20m², giving access to the two guest areas, which ones are up to 8 persons per side.

There are two dinettes with telescopic standing tables, allowing them to be converted into two large lounge and to this are added two 2.00 x 2.00 sunbeds.

In addition, suspended balconies have been designed with a total area of 12m².

With this layout, **BAHARI** offers you a maximum comfort on board.

Solar radiation resistant and easily washable upholstery has been selected for furniture.

Synthetic teak decking, greater durability and better performance in intense heat.

High-density foams for long-lasting durability.

Stainless steel metallic finishes.

Fixed bed for skipper and “pullman” bed for Deckhand . Allow long-range navigation to reposition the boat or stay anchored.

Numerous lockers and stowage space for provisions and stores.

The starboard hull toilet can be reserved for crew use.

Wide skylights are distributed along the length of the hull to illuminate and maximize natural light to the fullest.

On the port hull there is a galley with all the necessary accessories and a large space for stowage of food and kitchen utensils.

A long worktop for the preparation of catering, plating and gastronomic experiences.

All of this is designed to achieve the maximum comfort around working areas.

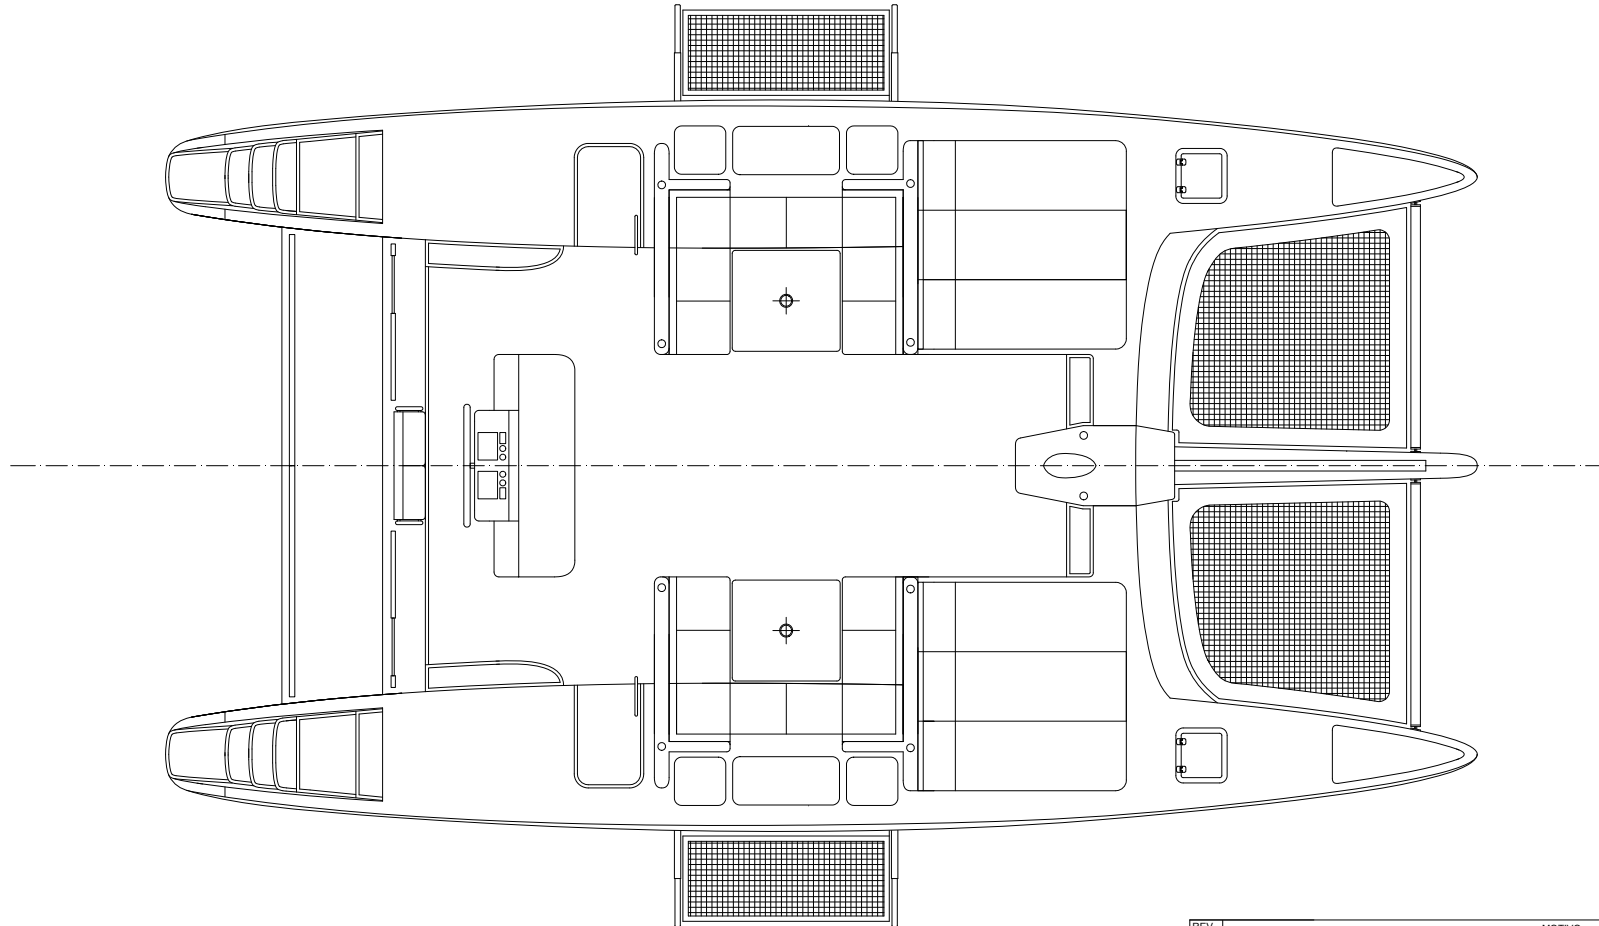

In these two views we show **BAHARI**'s layout for passenger version.

DIMENSIONES PRINCIPALES/MAIN DIMENSIONS

ESLORA TOTAL (L) / LENGTH OVER ALL (LOA)	12,27 metros
ESLORA ENTRE PERPENDICULARES (Lpp) / BETWEEN PERPENDICULARS (Lpp)	10,80 metros
CALADO DE DISEÑO (t) / DESIGN DRAFT (t)	0,60 metros
MANGA MÁXIMA DE TRAZADO / GREATEST MOULDED BREADTH	6,85 metros
PUNTAL MÁXIMO / MAX. DEPHT	2,40 metros
